

**SONG FORMAT:**Intro/Verse/Instrumental/Verse/Pre/Chorus/Intro/Verse/Pre/Chorus/Bridge/Outro

**INTRO:** Ebm  
Ebm Gb Ab

I am surrounded by a thousand enemies  
Who want to take my life at this very hour  
But when they close in, I know that I can have peace  
Cause no matter how big that they are...

Though I am innocent, these beasts want to kill me.  
They plot my death though I have done them no wrong  
I can hear them coming now, but I still have this peace  
Cause no matter how close are their claws...

Ab  
My God will save me, my God will save me

Ebm Gb Ab Bbm  
*Cause He's bigger than them, stronger than them,*  
Ebm Gb Ab Bbm Db

*And He's wiser than they'll ever be*

Ebm Gb Ab Bbm  
*So I will dry up my eyes and look up to the skies,*

B Db (back to intro chords)  
*Cause when He finally arrives, oh my God will save me*

My sheets are flooded from the tears that I weep  
My heart is the source of these salty fountains  
And I may be drowning in a valley, but I still have this peace  
Cause no matter how tall are these mountains...

Ab  
I'm going to make this decision right now, Ebm

When I shout "oh my God", it will be out of trust in You  
Ab

So even though I might not know how B

You're going to move, I will prove that You're coming through  
Db (back to intro chords)

Cause You always do...
